

Debbie Stott

One of the thousands of people in North Pinellas  
and West Pasco Counties who choose Helen Ellis.

# I live in Tarpon Springs, and for emergencies my hospital is Helen Ellis.

Debbie Stott was preparing a meal for her ill mother when she cut her finger with a cleaver. She knew she needed medical attention, but didn't look forward to an emergency room visit. Her husband took her to Helen Ellis Memorial Hospital. Debbie was very satisfied with her treatment and was quickly back in her kitchen cooking for mom.

As your community hospital, Helen Ellis provides a wide range of medical services,

from emergency treatment to cardiovascular care, with the personal attention you deserve. Through the strength of our partnership with University Community Hospital, you now have access to even more health services in more medical specialty and subspecialty areas. So if you need a doctor, or health care information, call our free physician referral service at 943-3600. Because Helen Ellis is where you go to get the care you need.
